

PREM Directors Meeting
September 14, 2012
National Science Foundation
Arlington, VA

Christine S. Jones
Liquid Crystal Materials Research Center
University of Colorado Boulder

Education Directors Network

- Evaluation Projects
 - MRSEC Cross-site REU Assessment
 - Piloted in summers 2010 and 2012
 - **Project IMAP-**Meta-Analysis of Programs in MRSEC Educational Outreach****
 - K-12 Cross Site Education Assessment Project
 - Partnership with Robert Tai -NSF PRIME -pending
 - MRSECs participating in the Netway project
- Annual Meetings
 - Meeting since 1999 – more regularly since 2007
 - September 28, 2012
 - Three focus groups
 - Diversity, Evaluation, Education (Science Content)

Evaluation:

Why are we doing this work?

National Academy of Science: *Looking Back Moving Forward*

- Programs that are exemplary in practice are those that can be targeted for rigorous, professional evaluation. Also these programs can be examined for potential replication at other MRSEC Centers.
- Cross-site evaluation
 - *The whole is greater than the sum of its parts.*

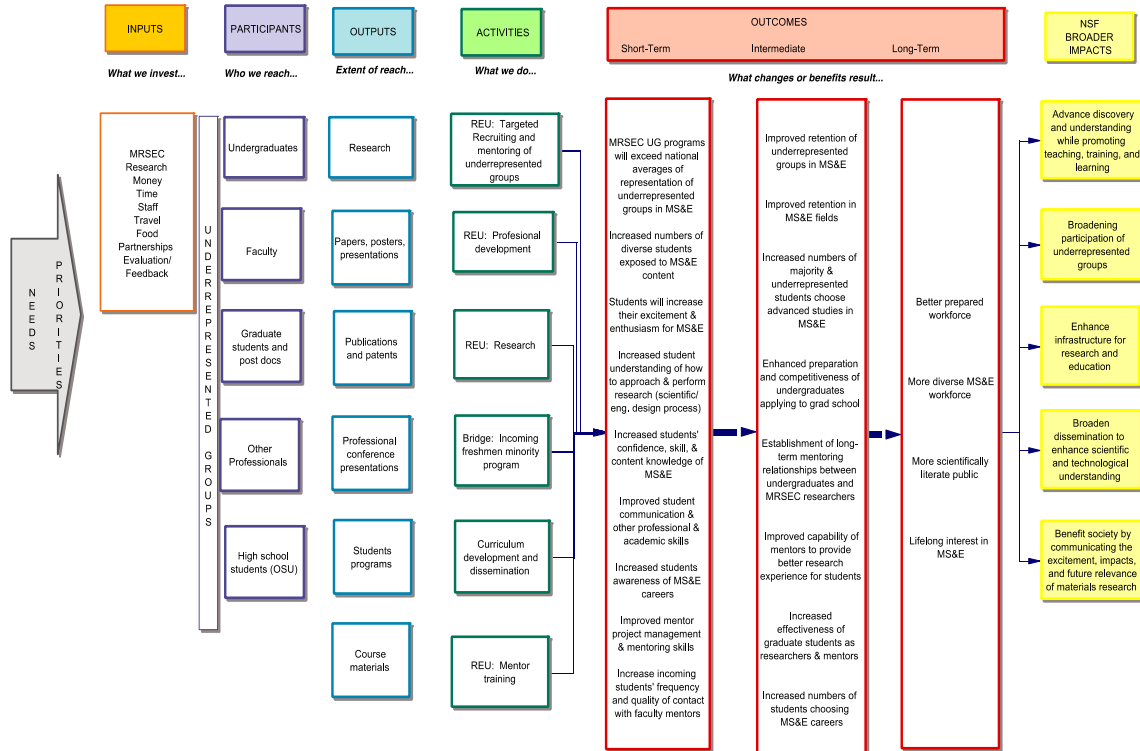

Preparing for Cross-Site Program Assessment

- Logic Model Workshop – September 2008
 - Identify E &O programs at each MRSEC site
 - where our commonalities lie
- Outcome
 - Constructed 6 logic models
 - K-12
 - Public interactions
 - K-12 teacher professional development, RET
 - REU
 - Graduated Student Training programs
 - Education and Outreach

REU Logic Model

MRSEC LOGIC MODEL: Undergraduate Research Experiences

Undergraduate Research Student Self Assessment An REU Student Assessment

Essential Elements of a UR Experience

Determined collectively based on a comprehensive review of the literature combined with a follow-up study*

1. Personal/professional gains related to the research work
2. Gains in thinking and working like a scientist: application of knowledge to research work
3. Gains in becoming a scientist: changes in attitudes or behaviors as a researcher
4. Gains of skills
5. Enhanced career and graduate school preparation
6. Confirmation of career paths

**MRSEC Cross-Center REU 2010 Pilot Survey
CORE Questions**

Gains in THINKING AND WORKING LIKE A SCIENTIST: APPLICATION OF KNOWLEDGE TO RESEARCH WORK.						
	no gains	a little gain	moderate gain	good gain	great gain	not applicable
1. How much did you GAIN in the following areas as a result of your most recent research experience?						
1.1 Analyzing data for patterns.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.2 Figuring out the next step in a research project.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.3 Problem-solving in general.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.4 Formulating a research question that could be answered with data.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.5 Identifying limitations of research methods and designs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.6 Understanding the theory and concepts guiding my research project.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.7 Understanding the connections among scientific disciplines.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1.8 Understanding the relevance of research to my coursework.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PERSONAL GAINS RELATED TO RESEARCH WORK						
	no gains	a little gain	moderate gain	good gain	great gain	not applicable
2. How much did you GAIN in the following areas as a result of your most recent research experience?						
2.1 Confidence in my ability to contribute to science.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.2 Comfort in discussing scientific concepts with others.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.3 Comfort in working collaboratively with others.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.4 Confidence in my ability to do well in future science courses.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.5 Ability to work independently.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* Hunter, Laursen, and Seymour, 2007

Benefits of Using URSSA

- Use URSSA core assessment
 - Generalized REU questions
 - vetted and tested for reliability and validity
 - focus on assessing the research experience, thinking and working like a scientist, skills, attitudes or behaviors as a researcher
- Add MRSEC focused questions
 - assess the added value and impact of participating in a MRSEC REU
 - Each site could add customized questions
- Use URSSA platform
 - center anonymity, student anonymity
 - compiled output data
- Student Responses
 - individual centers gain formative assessment information
 - have baseline data

Netway

<http://www.evaluationnetway.com/>

- Program to develop a logic model/pathway, and evaluation plan.
 - Cornell Office of Research and Evaluation
 - project educators and managers enter project information about activities, outputs and outcomes
 - The Netway is not yet available publicly yet

<https://core.human.cornell.edu/research/systems/netway.cfm>

MRSEC Education Directors Meetings September 28, 2012

- Meeting Goals
 - Examine
 - Existing and validated instruments for assessment of Participant Interest and Engagement
 - Limitations of existing instruments
 - Methods of data analysis and implementation
 - Examples of Data Analysis
- REU
 - Results of the cross-site analysis of 2010-2011 pilot data
 - Comparison to other URSSA users
- Invited Speakers- Science Education and Evaluation Research Community
 - Patricia Campbell, Ph. D.
 - “Making It Better: Using Research Results and NSF Frameworks to Improve the Quality and Usability of Evaluations”
 - Gil Noam, Ed.D., Ph. D.
 - “Assessment Tools of Quality STEM Programming and Engagement: New Developments”
 - Cary Sneider, Ph. D.
 - “The Next Generation Science Standards and MRSEC K-12 Outreach Opportunities”
 - Kirsten Ellenbogen, Ph.D.
 - “Measuring the Ephemeral: Effective Evaluation of Informal STEM Learning Experiences”
 - **Robert Tai, Ph.D**
 - Afternoon workshop
